

Dear prospect partners, supporters and interested clients,

We truly believe that the real story about Hungary is the best to be heard from us, the local people. It is us who can authentically and sincerely describe how astonishing the place we were born into is and we proudly show tourists around in our homeland.

The main purpose of the **Fans of Hungarian Products for Hungarian Products (MiÉrt)** non-profit public benefit organization with this website is to get anyone interested in Hungary closer to our real values. Additionally, we provide you with some unique items of which you may have never thought were actually of Hungarian origin.

Those who want to see the real heart of Hungary will be toured around by Hungarian inventors, designers, writers, artists, painters, movies as well as locals. We all love to live here and are more than happy to show you our values and to help everyone find their bearings so that those who visit can bring a little piece of the authentic Hungary back home.

You do not only find unique, rare yet typically Hungarian gifts on the website, but we also help you find further incredible hidden treasures.

Along with our partners we invite you to our special sightseeing tours where we cover the whole of Hungary, representing all the authentically Hungarian ethnographic, natural and culinary richness and variety.

Experience Hungary with us!

Our website is under construction, but thanks to our partners, the content of **www.mtro.hu** will be soon available in English.
